

## Jessica Persilver, MA

Jessica is originally from a small town on the outskirts of Lafayette, Louisiana. She moved to Texas in 2014 and has made Hallsville her home since then.

Jessica has two daughters and one son that attend or have graduated from Hallsville Independent School District. She is also a grandmother, aka Mimi, to one grandson. She is engaged to Matt who is a police officer for Hallsville, and he has one son. Together they make one big, blended family.

In her free time, Jessica enjoys cooking, listening to podcasts and music, spending time with her family and doing projects around the house.

Jessica found her love of the medical field while working as a hospital newborn photographer. Since then, she has worked in labor and delivery, phlebotomy, medical reception and scheduling, urgent care, pediatrics, emergency room, and stat lab.

She joined the Hallsville Medical Clinic when it opened in November of 2021 where she has been a delight to everyone that she has taken care of.

Jessica has found Family Medicine and Primary Care to be the best combination of her career experiences. She loves getting to know the patients and has enjoyed having a part in taking care of the little town of Hallsville.

For the future Jessica plans to continue serving patients with a combination of Modern Medicine and Old-Fashioned Care.
