

My name is Janie, and I'm a Certified Clinical Medical Assistant (CCMA) from South Texas. I've always had a heart for helping others, and working in healthcare allows me to live out that passion every day. Whether I'm taking vitals, assisting with procedures, or simply offering comfort to a patient, I know that even small moments of care can make a big difference.

I've been in the medical field for 14 years, and I truly love what I do. I take pride in staying organized, keeping things running smoothly for the providers I work with, and being someone the patients can trust.

Outside of work, I'm a proud mother of three incredible kids who keep me motivated and grounded. They're my biggest inspiration and the reason I strive to be the best version of myself—both at work and at home. Balancing a career in healthcare and motherhood isn't always easy, but it's always worth it.
